Block Assembly

Foundation Piecing

creates accurate points and allows blocks to be joined with precision!

Refresher Steps to Foundation Piecing:

1) Place the 1st piece of fabric on the undrawn side of the foundation, right side up, overlapping the drawn line by 1/4". Place the 2nd piece right side down on top of the 1st, matching cut edges. Pin (be sure to position the pin out of the stitching line.

2) Using a short stitch length, stitch the line, beginning and ending a stitch or two beyond the ends of the line.

3) Open the 2nd piece, pressing it flat against the foundation.

4) Turn to the marked side of the foundation paper, fold the foundation on the next sewing line, and time excess fabric to ¼" to form an accurate placement line for the next piece of fabric.
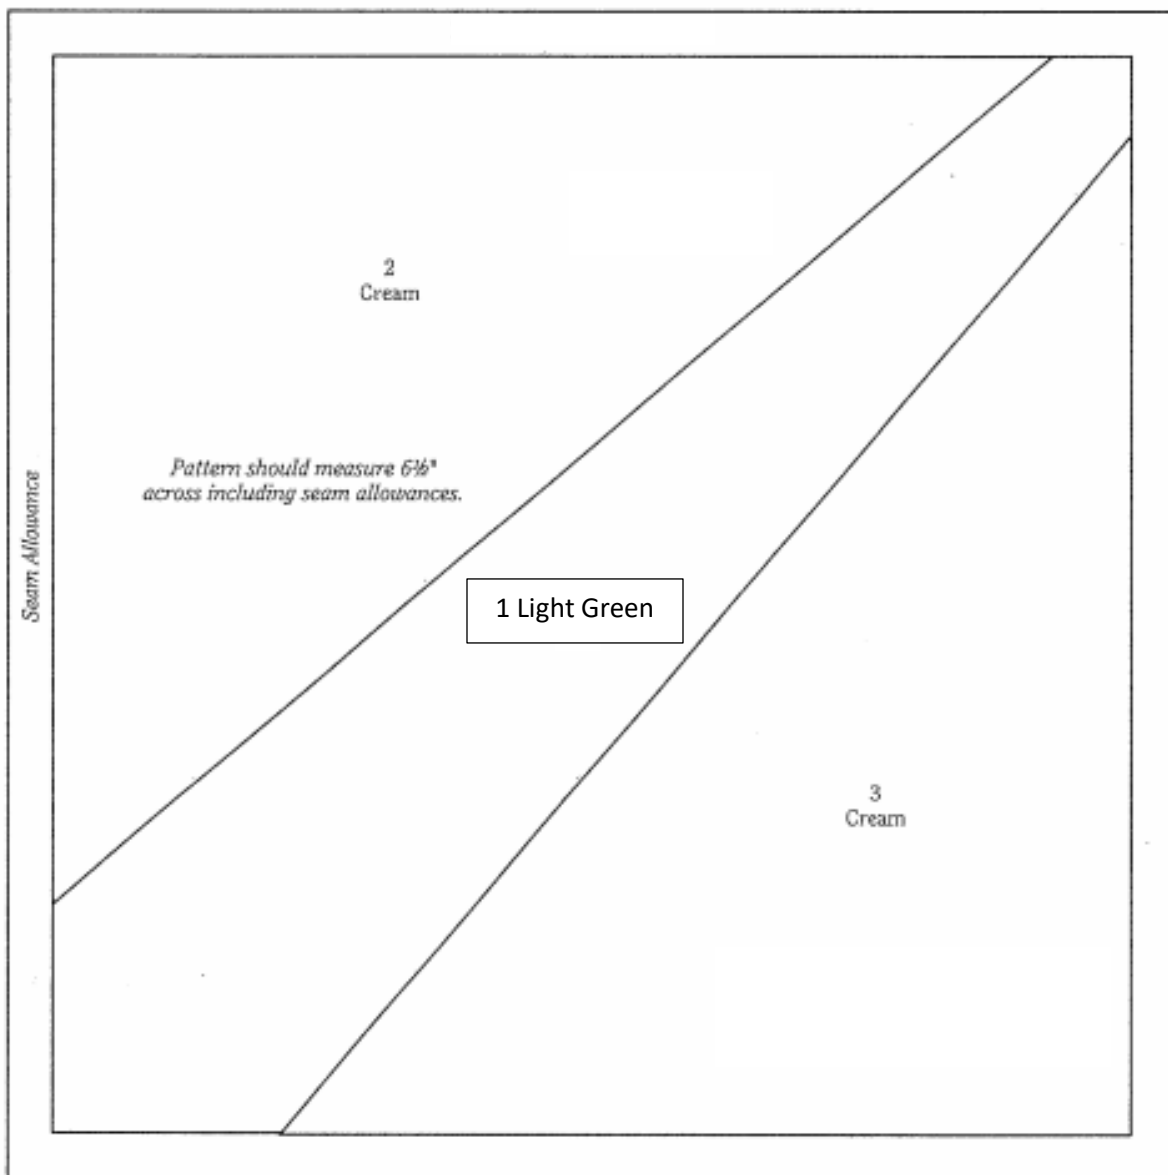

5) Continue adding pieces until foundation is covered.
